PIN OAK

FLOWERING CRAB-APPLE

Introduction ~

IN 1848, just 110 years ago this spring, Stephen Hoyt, great grandfather of our present president, started in the nursery business on the very site where our Nursery stands today.

In the early years only a few acres of trees were grown; propagation consisted almost entirely of fruit trees, since there was little demand for ornamental plants at that time. Later on through the years, flowering shrubs, evergreens, and an almost complete line of nursery stock were added, until we now grow nearly all varieties of trees and shrubs which thrive best in this locality.

We sincerely thank our many thousands of friends for their liberal and ever-increasing patronage that has enabled this Nursery to grow until we now have several hundred acres under cultivation, covered with thousands of plants.

During the past hundred years, we have always attempted to grow only the best nursery stock. In the future we aim to offer still finer plants and better service.

Planting Instructions

HOW TO DO IT YOURSELF

1. When you receive your plants from THE HOYT NURSERIES they will be in healthy condition and ready to grow if properly handled.
2. Almost without exception they will be balled and burlapped (B&B), or grown in a metal container or paper pot. They should be planted in these containers. Do not remove the burlap from the balled and burlapped plant; simply cut top of burlap after plant is put in hole and fold it back from around stem.
3. Flowering plants of all varieties should be planted in sunny locations to obtain satisfactory blossoms. Planting areas, if possible, should be in locations which are well drained.
4. Before digging holes for plants (even small ground-cover plants), be sure to select the locations where they will look best when planted. Reason: Once a plant is watered in, it is difficult to move it without injuring the ball and perhaps killing the plant.
5. When digging holes for plant material, whether potted or balled and burlapped, be sure to dig ample-sized holes, at least one and one-half times the size of the balls. The hole should be deep enough to allow the top of the ball, can, or paper pot to be slightly under the level of the ground when plant is placed in hole.
6. After plant is placed in hole as directed, fill hole two-thirds full of soil. If fertilizer is to be used (see "Fertilizing When Planting"), now is the time to use it. Spread a few handfuls around plant and fill hole with water. When water drains out, finish filling with soil up to level of ground. Leave earth in shape of a saucer around plant to catch and hold water.

HOW LONG CAN PLANTS BE SAFELY LEFT BEFORE PLANTING?

If plants are kept in a protected area and out of the sun and wind and well watered, it is safe to hold them for several days before planting. However, it is always best to plant as soon as possible.

FERTILIZING WHEN PLANTING

It is not necessary to use strong complete fertilizers (such as 10-6-4 or 8-6-4) when planting nursery plants. If fertilizer is used when planting, use organic types such as Farmanure, Milorganite, Cottonseed Meal, Agrinite, etc. These are safe! They will not burn the young roots before the plant is established, and the plant will be aided by the natural slow feeding nitrogen in these organic fertilizers. In addition to organic fertilizers, it is well to work a little Peat Moss into the soil when planting. This will act as a ground conditioner, will lighten the soil and help to develop a better root system. It will also help to retain moisture.

FERTILIZING AND CARE AFTER PLANTING

1. After nursery plants have become established for a season or two, the complete fertilizers (10-6-4, etc.) may be used. These fertilizers should be spread on top of the ground and cultivated into the soil. Being near the surface, they will not burn the roots and yet they will leach into the soil where the roots will pick up the balanced food elements as they need them.
2. The soil around all plants should be kept loose and cultivated at all times, unless a ground cover is used. Loose soil prevents the ground from baking and drying out and helps to hold moisture underneath the surface where the roots are feeding.
3. During dry seasons WATER THOROUGHLY ONCE A WEEK OR TEN DAYS. DO NOT WATER EVERY DAY!

For further information call
THE HOYT NURSERIES.

NOTICE TO CUSTOMERS

●

◀ **This catalog lists our trees and shrubs, but to appreciate them fully you should see them. Come over to the nursery and look around.**

◀ **OUR MATERIALS** and service are available to you directly or through your Landscape Architect.

◀ **PLANTING** begins in the spring as soon as frost is out of the ground and extends through April, May and June. Fall planting begins in August and extends through December, or until the ground freezes.

BUSINESS HOURS

During SPRING AND FALL PLANTING SEASONS we are open from 7:30 A.M. to 6:00 P.M. weekdays. Sundays from 9:00 A.M. until 12:00 noon and from 1:30 P.M. to 4:00 P.M.

During SUMMER AND WINTER MONTHS we are open from 7:30 A.M. to 5:00 P.M. *Sundays* by appointment only.

◀ **PRICES**—in this list do not include cost of delivering and planting. Plants are priced for our selection only. Specimen plants, many of which are not included in this list, will be charged for according to their individual value when selected by you. All quotations offered are subject to prior sale. These prices supersede all others and are subject to change without notice.

◀ **DELIVERIES** — pro rated charge on scheduled trips. Special deliveries conflicting with normal schedule will be arranged and charged for at cost.

◀ **TERMS**—Cash or satisfactory references must accompany all orders.

GUARANTEE

We guarantee to replace, at one-half original purchase price, any plant or tree that we have supplied, which dies from natural causes within a period of one year, provided the plants have been properly cared for, and provided payment has been received in 30 days or as arranged. The cost of delivering and planting of replaced material is borne by the purchaser and replacement is made at our convenience.

Ornamental and Shade Trees

Possibly the most attractive feature of many of our New England towns is their large shade and ornamental trees.

We have on hand balled and burlapped shade trees ready for planting, which can be delivered shortly after selection in sizes from 1½ to 3-inch caliper. Only shade trees already dug will be sold in the spring season.

Shade trees in the larger sizes will be dug for planting only from November until March 31. These trees will be priced on application.

Acer • Maple

ACER palmatum atropurpureum. *Japanese Red Maple.*

A fine semi-dwarf, red-foliaged tree that stands out in any location.	Each
1½ to 2 ft., B&B.....	\$12 50
2 to 3 ft., B&B.....	15 00
3 to 3½ ft., B&B.....	20 00
3½ to 4 ft., B&B.....	25 00

A. platanoides. *Norway Maple.*

A beautiful, full, round-topped Maple with large green leaves. Casts a very dense shade. Holds foliage till late fall. Yellow autumn color.

A. platanoides schwedleri. *Schwedler Maple.*

A variety of the Norway Maple with rich purple-red leaves in early spring, changing to dark green in midsummer.

A. saccharum. *Sugar or Rock Maple.*

The most gorgeous Maple for fall color, ranging from yellow to a vivid scarlet. Upright and stately in growth.

Sizes and prices of above three varieties:

1½ to 2-in. cal., 10 to 12 ft. high, B&B.	\$20 00 to 25 00
2 to 2½-in. cal., 12 to 16 ft. high, B&B.	40 00
2½ to 3-in. cal., 14 to 18 ft. high, B&B.	50 00
3 to 3½-in. cal., 14 to 18 ft. high, B&B.	60 00

A. rubrum. *Red or Scarlet Maple.*

Bright red bloom covers all the branches in spring. Again in late fall its foliage turns crimson and orange. Although a native in damp soils, it thrives equally well in dry spots.

1½ to 2-in. cal., 10 to 12 ft. high, B&B.	30 00
2 to 2½-in. cal., 10 to 12 ft. high, B&B.	35 00
2½ to 3-in. cal., 12 to 13 ft. high, B&B.	40 00

Betula • Birch

Our Policy Regarding Planting of Birch

Birch must be planted in the winter season. This season starts in January and extends through March.

BETULA alba laciniata. *Cut-leaf Weeping Birch.*

Deeply cut green leaves on white branches that droop gracefully to the ground like a large fountain.

	Each
7 to 8 ft., B&B.....	\$20 00
8 to 10 ft., B&B.....	25 00
10 to 12 ft., B&B.....	30 00

Ornamental and Shade Trees

Fagus • Beech

FAGUS sylvatica. *European Green Beech.*

Attractive green leaves. Grows slowly into beautiful specimens. Makes excellent hedges and screens.

F. sylvatica atropurpurea. *Copper Beech.*

One of our finest lawn trees, with wine-colored leaves in spring and early summer, fading to copper in July. This tree is one of the hardiest in the nursery.

F. sylvatica pendula. *Weeping Green-leaf Beech.*

Similar to European Green Beech, but with drooping branches and more dwarf in growth.

Sizes and prices of Fagus, on application.

GLEDITSIA, Moraine. *Moraine Locust.* Plant Pat. 836.

A new shade tree which is thornless and seedless. Resistant to disease and insect damage. Absence of seed pods and the quick crumbling of leaves make this tree ideal from the garden maintenance standpoint.

	Each
6 to 8 ft., B&B.....	\$15 00
8 to 10 ft., B&B.....	20 00

LIQUIDAMBAR styraciflua. *Sweet Gum.*

A fine pyramidal tree with large maple-like leaves which turn a blazing scarlet in the fall. Bark of corky texture. Suitable for swampy conditions as well as higher ground.

QUERCUS palustris. *Pin Oak.*

Sturdy, pyramidal, rugged, and irregular. Grows rapidly. Deeply cut green foliage turns rich crimson in fall. A swamp tree which can be planted to advantage in any type of soil.

Sizes and prices of Liquidambar and Quercus:	Each
1¾ to 2-in. cal., 8 to 12 ft. high, B&B.....	\$35 00
2 to 2½-in. cal., 10 to 14 ft. high, B&B.....	45 00
2½ to 3-in. cal., 12 to 18 ft. high, B&B.....	55 00
3 to 4-in. cal., 15 to 20 ft. high, B&B.....	90 00

Larger sizes on application.

PLATANUS orientalis. *European Plane.*

Large, picturesque, fast-growing tree, easily recognized by its gray and white bark. Most useful for streets, parks, seashore, and rough situations where a tough durable specimen is required. Resists insects.

SALIX, Niobe. *Golden Weeping Willow.*

Fast growing, with fine foliage. Distinct in winter, due to its golden bark. A graceful weeper.

SORBUS aucuparia. *Mountain-Ash.*

Well known in Europe for its great clusters of orange-red fruit. The robins in this country love these berries.

Sizes and prices of Platanus, Salix and Sorbus:	Each
6 to 8 ft., B&B.....	\$12 50
8 to 10 ft., B&B.....	15 00
1½ to 2-in. cal., 8 to 10 ft. high, B&B.....	25 00
2 to 2½-in. cal., 10 to 12 ft. high, B&B.....	30 00
2½ to 3-in. cal., 12 to 15 ft. high, B&B.....	40 00

Cornus florida (White-Flowering Dogwood)

Flowering Trees

There is probably no group of deciduous plants as popular or well known as this one. Their interesting habits of growth, glossy foliage, and gorgeous spring blooms, followed by attractive fruit of many colors in late summer and fall, make them an all-year-round satisfaction. Trees in this group thrive in almost all kinds of soil, and most varieties are very hardy. They flower best in full or partial sunshine.

CERCIS canadensis. Redbud; Judas-Tree.

Broad, irregular, vase-shaped tree that flowers from stem to tip before leaves appear. Flowers are rosy pink. A fine plant for wooded areas.

	Each
6 to 7 ft., B&B.....	\$17 50
7 to 8 ft., B&B.....	30 00

Cornus • Dogwood

CORNUS florida. White-Flowering Dogwood.

The early spring beauty of its pure white flowers, the summer freshness of its soft green leaves, and the fall splendor of brilliant scarlet foliage and orange-red berries, as well as its individual habit of growth, make this tree outstanding.

	Each
4 to 5 ft., B&B	\$7 50
5 to 6 ft., B&B.....	10 00
6 to 8 ft., B&B.....	20 00
8 to 9 ft., B&B.....	25 00
10 to 12 ft., B&B.....	40 00

Larger sizes on application

C. florida rubra. Pink-Flowering Dogwood.

Similar in beauty of growth to the White-Flowering Dogwood. Pink flowers add distinction to this variety. Most effective when planted among White Dogwood, for its leaves are more brilliant in the fall.

2 to 3 ft., B&B.....	6 50
3 to 4 ft., B&B.....	9 50
4 to 5 ft., B&B.....	12 50
5 to 6 ft., B&B.....	17 50

Flowering Trees

Cornus kousa. *Japanese Dogwood.*

A shrubby plant. Has large clusters of white flowers with distinct centers. Blooms after foliage appears, a month later than our native Dogwood.

	Each
5 to 6 ft., B&B.....	\$20 00
6 to 8 ft., B&B.....	25 00

Crataegus • Hawthorn

CRATÆGUS cordata. *Washington Hawthorn.*

White flowers. Red fruit lasting into winter. Fine foliage and color in autumn.

	Each
3 to 4 ft., B&B.....	\$12 50

C. monogyna plena. *Paul's Double Scarlet Hawthorn.*

Brilliant red flowers in clusters. Scarlet fruit.

5 to 6 ft., B&B.....	15 00
6 to 7 ft., B&B.....	20 00

C. monogyna rosea. *Paul's Double Pink Hawthorn.*

Pale pink flowers in clusters. Scarlet fruit.

5 to 6 ft., B&B.....	15 00
6 to 7 ft., B&B.....	20 00

GORDONIA alatamaha. *Gordonia (Franklinia).*

Low-branching ornamental tree reaching a height of 15 to 20 feet. Creamy white flowers in September and October. Shiny green foliage turning scarlet in fall.

2 to 3 ft., B&B.....	7 50
3 to 4 ft., B&B.....	12 50
4 to 5 ft., B&B.....	15 00

LABURNUM vossi. *Vossi Golden-Chain.*

A small tree bearing long racemes of golden blossoms in June. Pea-shaped flowers, in clusters like wisteria.

6 to 7 ft., B&B.....	17 50
7 to 8 ft., B&B.....	22 50

MAGNOLIA soulangeana. *Saucer Magnolia.*

Pink cups with white inner walls.

2 to 3 ft., B&B.....	7 50
3 to 4 ft., B&B.....	12 50
4 to 5 ft., B&B.....	15 00
5 to 6 ft., B&B.....	20 00

M. stellata. *Star Magnolia.*

Pure white, single flowers.

1½ to 2 ft., B&B.....	10 00
2 to 2½ ft., B&B.....	15 00

OXYDENDRUM arboreum. *Sorrel-Tree.*

A truly beautiful specimen. Shiny long green foliage. Fall finds this plant with clusters of waxy flowers and the leaves changing to vivid scarlet. Blends well in dogwood plantings.

5 to 6 ft., B&B.....	15 00
6 to 7 ft., B&B.....	20 00
7 to 8 ft., B&B.....	25 00

Flowers of *Crataegus monogyna* (Paul's Hawthorn)

Flowering Trees

Malus • Flowering Crab-Apple

These hardy flowering Crab-Apples thrive in almost all locations and exposures. No other flowering tree or bushes give such a profusion of bloom in the springtime. In the autumn they are adorned with clusters of fruits in many colors. Crab-Apples do best in a sweet, well-drained soil and require full sunshine for best results.

MALUS arnoldiana. *Arnold Crab-Apple.*

Flowers in May, semi-double, deep pink. Bears miniature yellow apples relished by birds.

M. atrosanguinea. *Carmine Crab-Apple.*

Single, dark pink flowers in May, shading into light crimson. Broad, shapely grower. Miniature yellow fruit in fall.

M. floribunda. *Pink and White Crab-Apple.*

Light pink flowers in May, followed by attractive tiny yellow and pink-cheeked apples in fall.

M., Hopa. *Hopa Red Flowering Crab-Apple.*

Rose-red flowers; red fruit. Hardy variety similar to *M. purpurea eleyi* with reddish leaves, but tree spreads more.

M. purpurea eleyi. *Eley Crab-Apple.*

A free-blooming, deep pink Crab-Apple with reddish foliage. Flowers in May. Bears miniature red fruit in fall.

M. scheideckeri. *Scheidecker Crab-Apple.*

Large, semi-double, pink flowers. Formal, upright grower. Bears waxy yellow fruit.

M. spectabilis. *Chinese Crab-Apple.*

Fragrant, double, delicate pink flowers. Beautiful upright plant. Bears small yellow fruit.

M. theifera. *Tea Crab-Apple.*

Flowers in May. Sturdy, spreading tree with entire branches covered with flowers which are white or tinted with pale pink.

Sizes and prices of above eight varieties of Malus:

	Each
Regular Grade	
5 to 6 ft., B&B.....	\$15 00
6 to 7 ft., B&B.....	17 50
Specimen Grade	
5 to 6 ft., B&B.....	20 00
6 to 7 ft., B&B.....	\$30 00 to 35 00
7 to 8 ft., B&B.....	35 00 to 40 00

Prunus • Flowering Japanese Cherry

This fine flowering tree from Japan thrives in this locality. The weeping variety blooms early and is very attractive in its habit of growth. The blooms of the Upright Cherry come later and last longer. They are single or double, depending on variety, and their colors range from blush to deep pink. They flower best in full sunlight.

-PRUNUS, Beni Higan. <i>Pink Single-flowering Cherry.</i>	Each
3 to 4 ft., B&B.....	\$10 00
4 to 5 ft., B&B.....	12 50
5 to 6 ft., B&B.....	15 00

P. cerasifera blireana. *Purple-leaved Plum.*

5 to 6 ft., B&B.....	15 00
6 to 7 ft., B&B.....	20 00

Flowering Trees

PRUNUS, Kwanzan. <i>Pink Double-flowering Cherry.</i>			Each
5 to 6 ft., B&B.....			\$15 00
6 to 7 ft., B&B.....			20 00
P. persica. <i>Double-flowering Peach.</i>			
White	Pink	Red	
3 to 4 ft., potted.....			5 00
P. serrulata pendulata. <i>Pink Weeping Japanese Cherry.</i>			
5 to 6-ft. stem, 4-yr. head, B&B regular grade....			17 50
5 to 6-ft. stem, 4-yr. head, B&B extra heavy			22 50
6 to 7-ft. stem, 5-yr. head, B&B extra heavy.....			35 00

Evergreens

Evergreens give permanent beauty all the year, carrying their beautiful richly colored foliage through the winter when deciduous trees and shrubs are leafless. Every home-builder, no matter how small the grounds, needs them. They not only provide privacy, but are indispensable for shelter and wind-breaks, hedges, backgrounds, and specimens in landscape work. The slow-growing and spreading varieties such as Yews and Junipers are available for use in house and garden plantings. Practically all evergreens require light and air. Yews and Hemlocks are the most tolerant of shade.

All Evergreens B&B (Balled & Burlapped)

CEDRUS atlantica glauca. *Blue Atlas Cedar.*

A very distinctive ornamental tree with rich blue foliage.		Each
3 to 4 ft.....		\$15 00
4 to 5 ft.....		20 00

Juniperus • Juniper; Cedar

JUNIPERUS chinensis columnaris. *Columnar Juniper.*

A rapid-growing, narrow Cedar. Blue-green foliage. Should be trimmed annually.

	Each
3 to 4 ft.....	\$10 00
4 to 5 ft.....	15 00

J. chinensis hetzi glauca. *Hetz Blue Juniper.*

Quite spreading in habit. Striking intense blue foliage.

15 to 18 in.....	5 00
1½ to 2 ft.....	6 00

J. chinensis pfitzeriana. *Pfitzer Juniper.*

A hardy, spreading, irregular Juniper. Two-tone green foliage. Will stand city conditions well. One of our best evergreens.

15 to 18 in.....	5 00
1½ to 2 ft.....	6 00
2 to 2½ ft.....	8 00
2½ to 3 ft.....	10 00
3 to 3½ ft.....	12 50

J. chinensis sargentii. *Sargent Juniper.*

A very hardy, blue-green, trailing Juniper of compact growth. Good ground-cover; valuable for rockery.

12 to 15-in. spread.....	5 00
15 to 18-in. spread.....	7 50

J. communis depressa plumosa. *Andorra Juniper.*

A valuable, spreading, feathery Juniper. Fine for slopes; also a good plant for border work. Turns a bronze color in the fall.

1½ to 2 ft.....	6 00
2 to 2½ ft.....	8 00

Evergreens

Juniperus virginiana cannarti. *Cannart Juniper.*

A very attractive hybrid having dark green, bunchy foliage. Bears porcelain-blue fruit in late summer. One of the best upright Junipers.

	Each
3 to 4 ft.....	\$10 00
4 to 5 ft.....	12 50

J. virginiana keteleeri. *Keteleer Cedar.*

A rugged, compact, pyramidal Cedar, bearing large, light blue berries in the fall. Has very attractive foliage, always free from disease.

3 to 4 ft.....	10 00
4 to 5 ft.....	12 50

Pinus • Pine

PINUS montana mughus. *Mugho Pine.*

A very fine low-growing Pine, used successfully in border work. One of the best for shore plantings. Hardy.

	Each
12 to 15-in. spread.....	\$5 00
15 to 18-in. spread.....	7 50

P. strobus. *White Pine.*

A native Pine, probably the best known of all. Great favorite for planting with birch and hemlock; also a fine screen tree. Pruning makes it more dense. A five-needle Pine.

5 to 6 ft.....	15 00
6 to 7 ft.....	17 50
7 to 8 ft.....	25 00
8 to 9 ft.....	40 00

P. thunbergi. *Japanese Black Pine.*

Irregular gnarled branches; light green foliage. Excellent for shore planting. Very hardy.

4 to 5 ft.....	20 00
5 to 6 ft.....	25 00
6 to 7 ft.....	30 00

Pseudotsuga • Douglas Fir

This evergreen is a rapid, graceful grower. Its foliage varies from light to dark green, and in some types even to a bluish green. It is perfectly hardy and transplants easily. This conifer thrives in exposed locations and grows well in moist as well as well-drained soils. It is used for windbreaks, screens, or as a specimen tree; also used extensively for Christmas trees.

PSEUDOTSUGA douglasi. *Douglas Fir.*

	Each
2 to 3 ft.....	\$6 00
4 to 5 ft.....	15 00
5 to 6 ft.....	20 00

Taxus • Yew

TAXUS baccata repandens. *English Spreading Yew.*

A flat-growing, dark green Yew. Good for foundation, cemetery, rockery and border plantings.

	Each
15 to 18 in.....	\$8 00
1½ to 2 ft.....	10 00

T. cuspidata. *Japanese Spreading Yew*

A spreading Yew, bearing beautiful red berries in fall. Responds well to shearing, yet is attractive when allowed to develop naturally. Excellent for hedges, borders, and foundation plantings. Does fairly well in shade.

12 to 15-in. spread.....	5 00
15 to 18-in. spread.....	6 00
1½ to 2-ft. spread.....	7 50
2 to 2½-ft. spread.....	12 50
2½ to 3-ft spread.....	15 00

Evergreens

Taxus cuspidata capitata. Japanese Pyramidal Yew.

Handsome pyramidal tree. Its dark green foliage is covered with red berries in the fall. Fine for formal plantings, hedges, or as specimens. Our plants in this variety are a far superior type.

	Each
3 to 4 ft.....	\$15 00
4 to 5 ft.....	20 00
5 to 6 ft.....	25 00

T. cuspidata hoyti. Hoyt's Yew.

A compact, upright, spreading Yew densely clothed with large, heavy, dark green foliage. It is a fine grower. Has red berries in late summer and fall.

15 to 18-in. spread	6 00
1½ to 2-ft. spread	7 50
2 to 2½-ft. spread	12 50
2½ to 3-ft. spread	15 00

T. cuspidata nana (brevifolia). Dwarf Japanese Yew.

We believe Nana to be the best of all the Yews. Artistic and irregular, spreading growth if allowed its freedom. It is very hardy and has deep green foliage. Truly an aristocrat. It may be used as a specimen or for dwarf hedges.

12 to 15 in.....	6 00
15 to 18 in.....	7 50
1½ to 2 ft.....	10 00
2 to 2½ ft.....	12 50

T. media browni. Brown's Yew.

Similar to Cuspidata Yew but slower and more compact growing.

12 to 15-in. spread.....	5 00
15 to 18-in. spread	6 00
1½ to 2-ft. spread	7 50
2 to 2½-ft. spread	12 50

T. media densiformis. Dense Yew.

A very dense, compact grower with dark green foliage.

15 to 18 in.....	7 50
------------------	------

T. media hatfieldi. Hatfield's Yew.

Similar to Hicks Yew except that it does not yield berries.

12 to 15 in.....	5 00
15 to 18 in.....	6 00
1½ to 2 ft.....	8 00
2 to 2½ ft.....	10 00

T. media hatfieldi (spreader). Hatfield's Spreading Yew.

Similar in color and foliage to Hatfieldi, but more spreading in growth.

15 to 18 in.....	8 00
1½ to 2 ft.....	10 00

T. media hicksi. Hicks Yew.

Having a columnar habit of growth, it may be substituted for the Irish Yew in cold climates. Very dark green in color, it is valuable in formal gardens and when planted close makes a fine hedge.

12 to 15 in.....	5 00
15 to 18 in.....	6 00
1½ to 2 ft.....	8 00
2 to 2½ ft.....	10 00
2½ to 3 ft.....	15 00
3 to 3½ ft.....	20 00

Evergreens

Thuja • Arborvitæ

THUJA occidentalis globosa. *Globe Arborvitæ*.

Compact, globe-shaped plant. Good for foreground planting.

	Each
12 to 15 in.....	\$4 00
15 to 18 in.....	5 00
18 to 24 in.....	6 00

T. occidentalis [douglasi pyramidalis. *Douglas Pyramidal Arborvitæ*.

Slender, pyramidal, spiral effect, with twisted, dark green foliage. Very effective in combination with other evergreens.

T. occidentalis nigra. *Dark American Arborvitæ*.

Fast-growing, hardy, pyramidal tree, useful for screening and hedging.

T. occidentalis pyramidalis. *Pyramidal Arborvitæ*.

A dense, slender green pyramid, probably the best in its family. Good for formal work; a good hedge plant.

T. occidentalis semperaurea. *Goldentip Arborvitæ*.

Dense, pyramidal tree. Dark green foliage, tipped with deep gold. This thrives well in almost complete shade.

T. occidentalis wareana. *Siberian Arborvitæ*.

Semi-dwarf, slow-growing, broad-based pyramid.

Sizes and prices of above five varieties of Thuja.

2 to 3 ft.....	5 00
3 to 4 ft.....	7 50
4 to 5 ft.....	10 00
5 to 6 ft.....	12 50

Tsuga • Hemlock

Stately grace and dignity characterize the Hemlock, which we consider the most beautiful of the larger North American evergreens. Its attractive dark green foliage weeps gracefully and is tipped with the bright green of new growth during the spring. Hemlocks are hardy and thrive in almost any soil. They tolerate the shade better than other evergreens and are very adaptable, being used for hedges, backgrounds for gardens, or as specimens. They stand shearing or pruning or may be allowed to grow naturally.

TSUGA canadensis. *Canadian Hemlock*.

	Each
1½ to 2 ft.....	\$6 00
2 to 3 ft.....	7 50

Tsuga canadensis (Canadian Hemlock)

Azaleas

Happily situated by being planted in full sunshine but protected from winter winds, Azaleas produce brilliant blossoms of many colors. They want an acid soil, and during blooming time require an abundance of moisture. Some of our native types grow into fairly large bushes, but most Azaleas seldom attain a height of more than 3 or 4 feet.

All Azaleas B&B (Balled and Burlapped)

AZALEA arborescens. *Sweet Azalea.*

Fragrant white or blush-pink flowers, desirable on account of late bloom. Flowers in June. Each

15 to 18 in.....	\$4 00
1½ to 2 ft.....	5 00

A. calendulacea. *Flame Azalea.*

Probably the most brilliant of our native shrubs. Flowers in late May, orange to scarlet in color.

15 to 18 in.....	4 00
1½ to 2 ft.....	5 00

A. hinodegiri.

Single brilliant carmine-pink flowers. Nearly evergreen.

12 to 15 in.....	3 50
15 to 18 in.....	5 00

A. kaempferi fedora. *Hybrid Torch Azalea.*

Salmon-pink flowers in May.

12 to 15 in.....	4 00
15 to 18 in....	5 00
1½ to 2 ft.....	7 50

A. ledifolia alba.

Pure white flowers in May. Semi-evergreen.

12 to 15 in.....	5 00
15 to 18 in.....	6 00
1½ to 2 ft.....	7 50

A. mollis. *Hybrid Azalea.*

Yellow, salmon and apricot shades. Flowers in May.

12 to 15 in.....	4 00
15 to 18 in.....	5 00
1½ to 2 ft.....	6 00

A. mucronulata. *Dahurian Azalea.*

Lavender-pink flowers in April.

15 to 18 in.....	5 00
1½ to 2 ft.....	6 00
2 to 2½ ft.....	8 50

A. nudiflora. *Pinxterbloom.*

A native pink, blooming in mid-May.

15 to 18 in.....	4 00
1½ to 2 ft.....	5 00

A. poukhanensis. *Korean Azalea.*

Pale lavender. Large blooms sweetly scented.

15 to 18 in.....	5 00
1½ to 2 ft.....	6 00
2 to 2½ ft.....	7 50

A. schlippenbachii. *Royal Azalea.*

Attractive, large, rose-pink blossoms in June.

12 to 15 in.....	4 00
15 to 18 in.....	5 00
1½ to 2 ft.....	7 50

A. vaseyi. *Pinkshell Azalea.*

Beautiful shell-pink flowers in early May.

15 to 18 in.....	4 00
1½ to 2 ft.....	5 00

Hardy Evergreen Shrubs

The importance of this class of plant material has long been recognized by many garden lovers. Since most are evergreen, they present an attractive appearance in both summer and winter. They are comparatively slow growers, are easy to keep in bounds, and grow more beautiful with age. All of these varieties grow best in a somewhat acid soil, lightened by plenty of leaf-mold or peat moss, and some require protected locations for best results. Certain varieties may be used with success in plantings in the shade.

All B&B (Balled and Burlapped) except where otherwise noted

ABELIA grandiflora. Glossy Abelia.

A dainty evergreen shrub bearing little bell-shaped pink flowers. Blooms throughout the summer until frost. Excellent for garden plantings. May be cut back every spring. Each

15 to 18 in.....	\$5 00
1½ to 2 ft.....	6 00

BERBERIS julianae. Wintergreen Barberry.

Evergreen. Deep green lustrous leaves turning vivid scarlet before they fall. Clustered yellow flowers; purplish fruits. Good for hedge.

15 to 18 in.....	5 00
1½ to 2 ft.....	6 00

BUXUS sempervirens arborescens. Boxwood.

Hardest type of Boxwood. Dark green color, compact in growth, adaptable for use as edging, specimens and in topiary work.

15 to 18 in.....	5 00
1½ to 2 ft.....	6 00

ILEX crenata. Japanese Holly.

Dense-growing, upright plant with dark green, box-like leaf. Small black fruit. Blends well in any evergreen planting; also used as a specimen.

15 to 18 in.....	5 00
1½ to 2 ft.....	6 00
2 to 2½ ft.....	8 50
2½ to 3 ft.....	10 00
3 to 3½ ft.....	15 00

I. crenata bullata. Boxleaf Japanese Holly.

A hardy, compact, dwarf border plant. Shiny black fruit. A fine substitute for boxwood.

12 to 15 in.....	5 00
15 to 18 in.....	6 00
1½ to 2 ft.....	8 50

I. crenata helleri. Heller's Japanese Holly.

A hardy flat-growing oval shaped plant. Excellent for rockery planting.

12 to 15 in.....	5 00
15 to 18 in.....	6 00

I. crenata rotundifolia. Roundleaf Japanese Holly.

Large, lustrous foliage. Round, compact, semi-dwarf habit of growth.

15 to 18 in.....	5 00
1½ to 2 ft.....	6 00
2 to 2½ ft.....	8 50

Hardy Evergreen Shrubs

ILEX glabra. Inkberry.

A native shrub with deep green leaves and black berries, used to advantage in evergreen gardens, along stream and pool or edging woodland.

	Each
15 to 18 in.....	\$5 00
1½ to 2 ft.....	6 00
2 to 2½ ft.....	7 50

I. opaca. American Holly.

Better known as Christmas Holly. Becoming more and more a favorite. Its shiny leaves and red berries make it a desirable plant for use as a specimen, in mass planting, or for hedges. Will stand pruning.

Sizes and prices on application.

KALMIA latifolia. Mountain Laurel.

This, our Connecticut State Plant, is probably the most valuable and beautiful of all our broadleaf evergreens. Produces great masses of pink flowers in June. Can be used for mass plantings, border work, and as a specimen; in fact, it adds beauty anywhere.

Nursery Grown

Collected

2 to 2½ ft.....	5 00
2½ to 3 ft.....	6 00

LEUCOTHOE catesbæi. Drooping Leucothoe.

A low-growing evergreen plant with arching branches. Rich green leaves turning to bronze in the fall. Showy, fragrant, creamy white flowers in May. Excellent when used in border combinations with laurel and rhododendron.

15 to 18 in., collected.....	4 00
1½ to 2 ft., nursery grown.....	6 00

PIERIS (Andromeda) floribunda. Mountain Andromeda.

A very hardy evergreen shrub which blooms early in spring, producing an abundance of upright white flower-spikes. Used for border work in mass plantings.

12 to 15 in.....	5 00
15 to 18 in.....	6 00

P. japonica. Japanese Andromeda.

Truly one of the finest broadleaves with graceful, pendulous sprays of white flowers in early spring, followed by striking wine-colored new growth. Excellent for rockeries, specimens, or bordering taller growing species.

15 to 18 in.....	5 00
1½ to 2 ft.....	7 00
2 to 2½ ft.....	10 00
2½ to 3 ft.....	15 00

PYRACANTHA coccinea, Government Red.

A shrubby Thorn with white flower clusters, known best for its red fruit that appears in late summer.

P. coccinea lalandi. Laland Firethorn.

A shrubby Thorn with white flower clusters, known best for its orange-red fruit that appears in late summer.

Sizes and prices of above two varieties of Pyracantha:

15 to 18 in., pot-grown.....	4 00
1½ to 2 ft., pot-grown.....	5 00
2 to 3 ft., pot-grown.....	7 50

Hardy Evergreen Shrubs

Rhododendrons

Rhododendrons are easy to grow. Planted in properly prepared soil, they will give satisfaction. There are many types to choose from, ranging from dwarf to tall-growing varieties. For best effects, group plantings are suggested. Good care is necessary. They must have an acid soil and a mulch of oak leaves or lawn clippings. Liberal watering during dry periods is essential.

RHODODENDRON carolinianum. *Carolina Rhododendron.*
Small-leaved variety with pink flowers. Semi-dwarf. Blooms in June.

Nursery Grown	Each
12 to 15 in.....	\$4 50
15 to 18 in.....	5 25
1½ to 2 ft.....	6 50

R. catawbiense. *Catawba Rhododendron.*
Parent of many hybrids. Blooms in May and June. Rosy purple flowers.

Nursery Grown	
1½ to 2 ft.....	6 00
2 to 3 ft.....	8 00

R. maximum. *Rosebay Rhododendron.*
A good plant for shady places. The large leaves are of greater landscape value than the pale pink flowers. Blooms in late June. Prefers acid soil. Good for mass plantings.

Nursery Grown	
1½ to 2 ft.....	5 50
2 to 3 ft.....	7 50

Flowering Shrubs

AMELANCHIER canadensis. *Downy Shadbush.*

Native plant bearing white flowers in early spring. Fruit relished by birds. Grows well in wooded and wet sections.

	Each
2 to 3 ft., B&B.....	\$3 00
3 to 4 ft., B&B.....	4 00

ARONIA arbutifolia. *Red Chokeberry.*

White flowers tinged with red in early spring. Outstanding red fruit in fall.

2 to 3 ft., B&B.....	3 00
3 to 4 ft., B&B.....	4 00

A. melanocarpa. *Black Chokeberry.*

White flowers. Black fruit in fall.

2 to 3 ft., B&B.....	3 00
3 to 4 ft., B&B.....	4 00

BENZOIN æstivale (*Lindera Benzoin*). *Spice-Bush.*

Clusters of yellow flowers in April. Red berries in September, relished by birds. Good for moist ground.

2 to 3 ft., B&B.....	3 00
3 to 4 ft., B&B.....	4 00

BERBERIS thunbergi atropurpurea. *Redleaf Japanese Barberry.*

Similar to Thunbergi in habit. Foliage bright red in spring, reddish purple in summer and scarlet in fall.

1½ to 2 ft., B&B.....	2 00
-----------------------	------

BUDDLEIA, Charming. *Pink Butterfly-Bush.*

Large spires of pink flowers. Blooms all summer.

3-yr., pot-grown.....	2 00
-----------------------	------

B., Dubonnet. *Hybrid Butterfly-Bush.*

Improved variety. Blooms all summer. Dark wine-red flowers. Attracts butterflies.

3-yr., pot-grown.....	2 00
-----------------------	------

B., Ile de France. *Hybrid Butterfly-Bush.*

Clear rosy purple, fragrant flowers during summer.

3-yr., pot-grown.....	2 00
-----------------------	------

B., Snowbank. *White Hybrid Butterfly-Bush.*

New white Buddleia with round compact sprays measuring 10 to 15 inches in length.

3-yr., pot-grown.....	2 00
-----------------------	------

CALYCANTHUS floridus. *Sweet-Shrub.*

Sweet-scented brown bud-like flowers in June. Good for mass plantings. Old-fashioned Strawberry Shrub.

2 to 3 ft., B&B.....	3 00
3 to 4 ft., B&B.....	4 00

CLETHRA alnifolia. *Sweet Pepperbush.*

Fragrant white flowers during June and July. Thrives in damp ground as well as upland.

2 to 3 ft., B&B.....	3 00
3 to 4 ft., B&B.....	4 00

CORNUS alba sibirica. *Coral Dogwood.*

Coral bark gives striking effect in winter.

3 to 4 ft., B&B.....	3 50
4 to 5 ft., B&B.....	5 00
5 to 6 ft., B&B.....	7 50

C. stolonifera flaviramea. *Golden-twig Dogwood.*

Bright yellow bark in winter. Blends well with Red-barked Dogwood.

3 to 4 ft., B&B.....	3 50
4 to 5 ft., B&B.....	5 00
5 to 6 ft., B&B.....	7 50

Flowering Shrubs

Cotoneaster

This introduction from China is a valuable contribution to the family of flowering shrubs. Graceful habit and beauty of leaf and fruit make it an ideal plant for house foundations, entrances, hedges, or ground-cover plantings.

COTONEASTER divaricata. *Upright Spreading Cotoneaster.*

Small green leaves. Brilliant red berries in autumn. Each
1½ to 2 ft., pot-grown.....\$3 00

C. francheti. *Franchet Cotoneaster.*

Olive-green leaves and bright red berries. A graceful, fast grower.

1½ to 2 ft., pot-grown..... 3 00
2 to 3 ft., pot-grown..... 5 00

C. horizontalis. *Rock Cotoneaster.*

A dwarf, trailing variety, nearly evergreen, with brilliant red berries.

10 to 15 in., pot-grown..... 3 50
15 to 18 in., pot-grown..... 4 50
1½ to 2 ft., pot-grown..... 5 50

CYDONIA japonica. *Japanese Flowering Quince.*

Pink flowers in early May.

15 to 18 in., pot-grown..... 2 00
1½ to 2 ft., pot-grown..... 3 00

DEUTZIA gracilis.

A dwarf Deutzia, with snowy white flowers. Valuable in border planting. Blooms in May.

15 to 18 in., B&B..... 2 50

D. scabra candidissima. *Double-flowering White Deutzia.*

Grows tall. White flowers in May.

D. scabra crenata. *Double-flowering Pink Deutzia.*

One of the finest tall-growing Deutzias. Pink and white blossoms in May.

D. scabra, *Pride of Rochester.*

Probably the best known of all Deutzias. Grows tall. White to pale pink flowers in May.

Sizes and prices of above three varieties of Deutzia:

3 to 4 ft., B&B..... 3 50
4 to 5 ft., B&B..... 5 00
5 to 6 ft., B&B..... 7 50

ENKIANTHUS campanulatus. *Redvein Enkianthus.*

An erect-growing shrub with pale yellow flowers, tinged with pink in May. Its leaves turn a beautiful scarlet color in the fall.

1½ to 2 ft., B&B..... 5 00
2 to 2½ ft., B&B..... 7 50
2½ to 3 ft., B&B..... 8 50

EUONYMUS alatus. *Winged or Corky-barked Euonymus.*

A corky-barked tree with startling crimson foliage in the fall. Good plant for exposed places.

3 to 4 ft., B&B..... 3 50
4 to 5 ft., B&B..... 5 00
5 to 6 ft., B&B..... 7 50

E. alatus compactus. *Dwarf Winged Euonymus.*

Same habit as Alatus, but in the dwarf form. Good for low hedges and foreground planting.

2 to 3 ft., B&B..... 3 00
3 to 4 ft., B&B..... 4 00

Flowering Shrubs

FORSYTHIA intermedia spectabilis. *Showy Border Forsythia.*

This showy Forsythia is a little darker yellow than other varieties. One of the best April bloomers.

F. intermedia, *Spring Glory.*

Arching branches completely covered with large, pale yellow blooms. Produces nearly twice as many blossoms as the common Forsythia.

F. suspensa. *Weeping Golden-Bells.*

Blooms in late April and early May. Excellent for sprawling over walls or steep banks.

F. suspensa fortunei. *Fortune's Golden-Bells.*

Blooms in late April and early May. Has especially attractive yellow branches.

Sizes and prices of above four varieties of Forsythia: Each

3 to 4 ft., B&B.....\$3 50

4 to 5 ft., B&B..... 5 00

5 to 6 ft., B&B..... 7 50

HAMAMELIS mollis. *Chinese Witch-Hazel.*

Golden yellow flowers in February, borne in good-sized clusters on the ends of stubby branchlets.

3 to 4 ft., B&B..... 8 00

H. virginiana. *Witch-Hazel.*

Lemon-color flowers, blooming in late autumn after leaves fall.

3 to 4 ft., B&B..... 3 50

4 to 5 ft., B&B..... 5 00

Hibiscus syriacus • Althea; Rose-of-Sharon

The Hibiscus, often known as Althea or Rose-of-Sharon, blooms from July to September, when so few of our shrubs are in flower. They grow as high as 8 to 12 feet. **WHITE.**

Each
2 to 3 ft., B&B.....\$3 00

3 to 4 ft., B&B..... 4 00

HYDRANGEA arborescens grandiflora. *Hills-of-Snow Hydrangea.*

H. paniculata grandiflora. *Peegee Hydrangea.*

Blooms on new growth, August to frost. White, gradually turning to pink. Must be trimmed back severely each year.

HYPERICUM aureum. *Golden St. Johns-wort.*

A dwarf, compact-growing shrub. Blue-green foliage followed by yellow flowers in July and August, later adorned with numerous seed-pods.

ILEX verticillata. *Black-Alder; Winterberry.*

Native shrub. Bright red berries in late fall, lasting well into the winter. Good Christmas decorations.

KERRIA japonica flore-pleno. *Double-flowering Globe-Flower.*

Double, yellow, rose-shaped flowers in May. Green-yellow bark.

KOLKWITZIA amabilis. *Beauty-Bush.*

Branches arching to ground with beautiful dainty pink blooms in June. Truly one of the best flowering shrubs. Good for flower arrangements.

Sizes and prices of above six varieties of shrubs:

2 to 3 ft., B&B..... 3 00

3 to 4 ft., B&B..... 4 00

Flowering Shrubs

LIGUSTRUM ovalifolium. *California Privet.*

Rapid growing. Bears black fruit in fall. Very hardy. Each
2 to 3 ft., bare root.....\$35 per 100..\$0 50

L. ibota regelianum. *Regel's Privet.*

Fine for shady spots. A spreading, irregular, dense-growing Privet. Bears black fruit in fall. Excellent for massing or for hedges.

2 to 3 ft., B&B..... 3 00
3 to 4 ft., B&B..... 4 00

LONICERA fragrantissima. *Winter Honeysuckle.*

So named because its foliage clings after heavy frosts. Blooms in early April, with creamy white flowers similar in odor to those of honeysuckle vine. Red fruit in summer.

L. morrowi. *Morrow's Bush Honeysuckle.*

A native of the Orient. Broad, spreading habit. Small white flowers tinged with yellow, followed by red fruit.

L. tatarica rosea. *Pink Tatarian Honeysuckle.*

A tall-growing shrub with pink flowers. Covered with scarlet fruit in late summer. Does well in the shade.

Sizes and prices of above three varieties of Lonicera:

3 to 4 ft., B&B..... 3 50
4 to 5 ft., B&B..... 5 00
5 to 6 ft., B&B..... 7 50

PHILADELPHUS coronarius. *Sweet Mock-Orange.*

The old-fashioned Sweet Syringa or Mock-Orange. This is an old favorite with snow-white flowers in May and June.

3 to 4 ft., B&B..... 3 50
4 to 5 ft., B&B..... 5 00
5 to 6 ft., B&B..... 7 50

P. lemoinei. *Lemoine Mock-Orange.*

A dwarf-growing shrub with sweet-scented, pure white flowers. Good for border plantings.

2 to 3 ft., B&B..... 3 00
3 to 4 ft., B&B..... 4 00

P. virginalis. *Double-flowering Mock-Orange.*

A double-flowering variety fast becoming a favorite, with its fragrant, gardenia-like flowers.

3 to 4 ft., B&B..... 3 50
4 to 5 ft., B&B..... 5 00
5 to 6 ft., B&B..... 7 50

PRUNUS glandulosa alba-plena. *White Double-flowering Almond.*

A dwarf-growing shrub adorned with numerous flowers along its many stems.

P. glandulosa rosea-plena. *Pink Double-flowering Almond.*

A dwarf-growing shrub adorned with numerous flowers along its many stems

P. maritima. *Beach Plum.*

Dainty white blossoms lightly sprinkled over the bush.

P. tomentosa. *Nanking Cherry.*

Branches completely surrounded by tiny white cherry blossoms, followed by scarlet cherries relished by birds.

P. triloba plena. *Pink Double-flowering Plum.*

A large-growing form of Prunus. Flowers similar to Pink Almond. More tree-like form.

Sizes and prices of above five varieties of Prunus:

2 to 3 ft., B&B..... 3 00
3 to 4 ft., B&B..... 4 00

Flowering Shrubs

RHODOTYPOS kerrioides. *Jetbead.*

A handsome shrub bearing dainty white flowers in May and June, followed by jet-black seed borne in clusters and hanging on all winter.

	Each
2 to 3 ft., B&B.....	\$3 00
3 to 4 ft., B&B.....	4 00

SALIX caprea. *Pussy Willow.*

A shrubby small tree. Buds open soft, fuzzy gray.

3 to 4 ft., B&B.....	3 50
4 to 5 ft., B&B.....	5 00
5 to 6 ft., B&B.....	7 50

SPIRÆA bumalda, Anthony Waterer. *Crimson Everblooming Spirea.*

Flat, rose-pink flowers during hottest days of summer and lasting until early fall. Dwarf grower.

1½ to 2 ft., B&B.....	2 50
2 to 2½ ft., B&B.....	3 00

S. prunifolia. *True Bridal Wreath.*

Small, pure white, double, bud-like flowers in early May. Upright grower.

S. thunbergi. *Thunberg's Spirea.*

Arching branches covered with tiny, single, snow-white flowers in very early spring. The feathery green foliage turns orange and scarlet in autumn.

S. vanhouttei. *Vanhoutte Spirea.*

Commonly called Bridal Wreath. Showy, arching sprays of clustering white flowers in late May. An aristocrat of flowering shrubs.

Sizes and prices of above three varieties of Spirea:

3 to 4 ft., B&B.....	3 50
4 to 5 ft., B&B.....	5 00
5 to 6 ft., B&B.....	7 50

SYMPHORICARPOS chenaulti. *Chenault Coralberry.*

A hybrid, similar to *Vulgaris*.

S. racemosus. *Snowberry.*

Known for its large white berries in September, which weigh down the slender branches. Fruit clings until frost. Very hardy. Suitable for most soil conditions. Stands shade.

S. vulgaris. *Coralberry.*

Bears small coral fruit which clings from fall till early spring. Very hardy.

Sizes and prices of above three varieties of Symphoricarpos:

	Each
2 to 3 ft., B&B.....	\$3 00
3 to 4 ft., B&B.....	4 00

SYMPLOCOS paniculata. *Asiatic Sweetleaf.*

White flowers in spring. Heavily laden with turquoise-blue berries in early autumn.

2 to 3 ft., B&B.....	5 00
3 to 4 ft., B&B.....	7 50
4 to 5 ft., B&B.....	10 00

SYRINGA. *Lilac.* See pages 30 and 31.

TAMARIX amurensis. *Amur Tamarix.*

Pink flowers in May. Feathery, blue-green foliage. Very effective near water; thrives at seashore.

3 to 4 ft., B&B.....	3 50
4 to 5 ft., B&B.....	5 00
5 to 6 ft., B&B.....	7 50

Flowering Shrubs

Viburnum · Snowball

VIBURNUM americanum. *American Cranberry.*

A handsome shrub bearing large clusters of berries which start turning a deep red about the first of August and hang on all winter.

Each

3 to 4 ft., B&B.....	\$3 50
4 to 5 ft., B&B.....	5 00
5 to 6 ft., B&B.....	7 50

V. burkwoodi. *Gardenia-scented Snowball.*

Semi-dwarf; blooms in May. Flowers are pink and white, very fragrant. Good foliage, lasting until late fall.

1½ to 2 ft., B&B.....	3 50
2 to 3 ft., B&B.....	5 00

V. carlesi. *Fragrant Viburnum.*

This beautiful semi-dwarf shrub starts blooming in May. Flowers are soft pink and very fragrant. Good in garden and border plantings.

15 to 18 in., B&B.....	5 00
1½ to 2 ft., B&B.....	7 50
2 to 2½ ft., B&B.....	9 00

V. dentatum. *Arrow-wood.*

A tall-growing type flowering in May and June. Bears blue-black berries in profusion. Its leaves turn purple and red. Withstands shade, also wet places.

V. dilatatum. *Linden Viburnum.*

A Chinese variety with white flowers in May and June. Its leaves turn a bright autumn red and its small scarlet berries hang on all winter. One of the best Viburnums.

V. lentago. *Nanny-Berry.*

A tree-like shrub, rather slender in growth. White flowers in May. Leaves turn reddish in fall. Has large blue-black fruit. Grows well in damp places.

V. opulus. *Highbush Cranberry.*

The European Cranberry. A very good bush bearing quantities of large clusters of glossy red berries. Good foliage.

V. opulus sterile. *Common Snowball.*

Bears clusters of snow-white, ball-like flowers in late May.

Sizes and prices of above five varieties of Viburnum:

3 to 4 ft., B&B.....	3 50
4 to 5 ft., B&B.....	5 00
5 to 6 ft., B&B.....	7 50

V. rhytidophyllum. *Leatherleaf Viburnum.*

A bushy evergreen shrub bearing striking red berries.

2 to 2½ ft., B&B.....	6 00
-----------------------	------

V. sieboldi. *Siebold Viburnum.*

Rapid growing. Large, dark green leaves. Creamy white flowers, followed by fruit which starts green, turning to pink and then black. Striking in appearance.

V. theiferum (setigerum). *Tea Viburnum*

Vigorous new Chinese species with long, acuminate, dark lustrous green leaves and conspicuous scarlet fruit.

V. tomentosum. *Single Japanese Snowball.*

This superb shrub has a tree-like habit of growth, producing its spreading branches in layers. In June, these horizontal limbs are covered with wheel-like clusters of dazzling white flowers.

V. tomentosum plicatum. *Double Japanese Snowball.*

These shrubs produce snowball-like flowers in May.

Sizes and prices of above four varieties of Viburnum:

3 to 4 ft., B&B.....	3 50
4 to 5 ft., B&B.....	5 00
5 to 6 ft., B&B.....	7 50

Flowering Shrubs

VITEX macrophylla. *Large-leaved Lilac Chaste-Tree.*

Lavender flowers in September. A perennial shrub.

	Each
2 to 3 ft., B&B.....	\$3 00
3 to 4 ft., B&B.....	4 00

WEIGELA candida. *White Weigela.*

Cream-white flowers in early June. Rapid grower.

3 to 4 ft., B&B.....	3 50
4 to 5 ft., B&B.....	5 00
5 to 6 ft., B&B.....	7 50

W., Eva Rathke. *Red-flowering Weigela.*

Dwarf-growing plant; dark red flowers.

2 to 3 ft., B&B.....	3 00
3 to 4 ft., B&B.....	4 00

W., Gustav Mallot. *Rose-red Weigela.*

Good grower, flowering in June.

W. rosea. *Pink and White Weigela.*

Good color and dwarf growth give this plant an advantage.

W. vaniceki. *Red Weigela.*

Flowers similar to Eva Rathke, but grows much larger.

Sizes and prices of above three varieties of Weigela:

3 to 4 ft., B&B.....	3 50
4 to 5 ft., B&B.....	5 00
5 to 6 ft., B&B.....	7 50

Shrub Roses

ROSA hugonis. *Father Hugo's Rose.*

Blooms profusely, with yellow flowers in early May. Fern-like foliage. A splendid hardy shrub Rose for the garden.

	Each
Pot-grown.....	\$3 00

R. rugosa. *Rugosa Rose.*

Large pink or red flowers from June to September. Use in borders or hedges.

Pot-grown.....	3 00
----------------	------

Syringa • Lilac

Spring is at its height when the Lilacs are in flower. Of the many flowering shrubs, the Lilac is surely the most reliable, lasts longer, and annually bears the handsomest flowers.

Lilacs want a sweet soil and bloom best when in full sunshine. The Hybrid varieties are popular. They are also known as French Lilacs. Their colors include pure white, shades of blue, and red, in large, single or double flower heads.

OLD-FASHIONED LILACS

SYRINGA japonica. *Japanese Tree Lilac.*

Single. Creamy white.

S. persica. *Persian Lilac.*

Immense spikes. Lavender-pink.

S. villosa. *Late Lilac.*

Single. Lavender-pink.

S. vulgaris. *Common Purple Lilac.*

Single. Purple.

Sizes and prices of above Old-Fashioned Lilacs:	Each
3 to 4 ft., B&B.....	\$5 00
4 to 5 ft., B&B.....	6 00
5 to 6 ft., B&B.....	8 00

Flowering Shrubs

HYBRID LILACS

Charles Joly. Double. Light red-purple.
 Charles X. Single. Reddish purple.
 Diderot. Single. Claret-violet.
 Hugo Koster. Single. Blue.

Hardy Vines

AMPELOPSIS tricuspidata veitchi. *Japanese or Boston Ivy.*

This Ampelopsis will cling to stone and wood. It is a dense grower. Its leaves turn a brilliant color in fall. Each

3-yr., pot-grown.....\$2 50

BIGNONIA, Mme. Galen. *Hybrid Trumpet Creeper.*

Large orange-scarlet flowers in August and September.

2-yr. pot-grown..... 2 50

CELASTRUS orbiculatus. *Oriental Bittersweet.*

Rapid grower. Brilliant orange-yellow fruit in the fall.

2-yr., pot-grown..... 2 50

CLEMATIS paniculata. *Small White-flowered Clematis.*

Light green foliage and fragrant, star-like, white flowers in great profusion in August and September. Excellent for trellises and arbors.

2-yr., pot-grown..... 2 50

HYBRID CLEMATIS

Large-flowered Clematis.

Comtesse de Bouchaud. Rose-pink.

Henryi. White.

Jackmani. Violet-purple.

Lawsoniana. Blue.

Mme. Baron Veillard. Lilac-rose.

Mme. Edouard Andre. Red.

President. Plum-violet.

Ramona. Blue.

Size and price of Hybrid Clematis:	Each
3-yr., pot-grown.....	\$3 50

Hardy Vines

EUONYMUS radicans. *Winter-Creeper.*

Self-clinging. Its small pointed leaves make a dense covering for almost any type of wall. Very hardy. Evergreen. Each

2-yr., pot-grown.....\$2 50

E. radicans vegetus. *Big-leaf Winter-Creeper.*

Called Evergreen Bittersweet. Round leaves of dull green color. Does well in any position. A self-clinging vine with fine orange-colored fruit. Evergreen.

2-yr., pot-grown..... 2 50

HEDERA helix and H. helix baltica. See below.

HYDRANGEA petiolaris. *Climbing Hydrangea.*

Good for a wall cover or on stone buildings. Flowers fragrant, white, blooming in early summer. Does well in exposed spots.

15 to 18 in., 4-in. pots..... 5 00

LONICERA japonica halliana. *Hall's Japanese Honeysuckle.* See below.

POLYGONUM auberti. *Silver Lace-Vine.*

Flowers are fleecy white. Will grow in any location.

2-yr., pot-grown..... 2 50

Wisteria

A very strong grower. It has attractive pale green foliage and, early in summer, a great profusion of flowers in long, pendulous clusters. Our plants were grafted from selected large-flowering vines and are **guaranteed** to bloom.

WISTERIA sinensis. *Blue Wisteria.* Each
5 to 7 ft., staked vines, tub-grown.....\$6 00

W. sinensis alba. *White Wisteria.*
5 to 7 ft., staked vines, tub-grown..... 6 00

Ground-Cover Plants

HEDERA helix. *English Ivy.*

Happily located, this is a very desirable vine. Has good dark green foliage and is long lived. Each

2-yr., pot-grown.....\$50 per 100.. \$0 65

H. helix baltica. *Hardy English Ivy.*

Very much like English Ivy, only smaller leaved. Very hardy. Clings tightly. Should be better known.

2-yr., pot-grown.....\$50 per 100.. 65

LONICERA japonica halliana. *Hall's Japanese Honeysuckle.*

Almost evergreen. Flowers yellow and white; very fragrant. Used as a ground cover.

2-yr., pot-grown.....\$150 per 100.. 2 00

PACHYSANDRA terminalis. *Japanese Spurge.*

Used extensively as a ground cover. It is also used to border laurel and rhododendron plantings. Good to plant under trees where grass will not grow.

Flat of 60 plants, \$10 per flat..... 30

VINCA minor. *Myrtle; Periwinkle.*

Does well in shady places; also used as a ground cover and rockery plant. Dark shiny leaves and blue blossoms. Does not grow well under maple trees where ground is bare.

2-yr., pot-grown.....\$25 per 100.. 40

Fertilizers

All plants need fertilizers. We carry what we believe are the best organic and complete fertilizers for plants, trees, lawns, roses and general use.

100% ORGANICS:

Excellent for lawns, trees, shrubs, etc., during growing season and useful when planting nursery plants. (See Planting Instructions, page 4.)

Agrinite, 7% nitrogen.

Milorganite, 6% nitrogen.

Cottonseed Meal, 7% nitrogen.

Castor Pumace, 5% nitrogen.

Price of above organic fertilizers, on application.

These organic materials will not burn even when applied during the hot dry months. Rate of application for lawns, 20 to 30 lbs. per 1000 sq. ft.

Farmanure (for planting). 50-lb. bag.....\$2 50

SPRING AND FALL COMPLETE FERTILIZERS FOR LAWNS:

Agrico 6-8-2, 50% Natural Organic. 50-lb. bag....\$3 15

Corenco 10-6-4, 50% Natural Organic. 50-lb. bag.... 2 75

Rate of application, 15 to 20 lbs. per 1000 sq. ft. Use during April to May 10, and in fall after September 15 to October 10.

FERTILIZERS FOR TREES AND SHRUBS:

Agrico. 50-lb. bag.....\$2 75

Agrico. 25-lb. bag..... 1 75

Corenco. 50-lb. bag..... 2 75

Corenco. 25-lb. bag..... 1 75

FERTILIZERS FOR ROSES:

Agrico Rose Food. 25-lb. bag.....\$3 00

Corenco Rose Food. 25-lb. bag..... 2 50

GROUND CONDITIONERS:

Limestone, quick-acting, for spring use. 50-lb. bag....\$1 00

Limestone, regular, for fall use. 50-lb. bag..... 1 00

Limestone Dolomitic. 100-lb. bag..... 1 50

PEAT MOSS. 3-pk. plastic bag.....\$1 25

Handy kar bale..... 4 00

CASH and CARRY DEPARTMENT

Here you will find plants freshly dug from our nursery fields. Select your plants, pay for them, take them with you and save 5% on the regular catalog prices.

Following are varieties which will be available. For prices, check these items with catalog.

Ornamental and Shade Trees

ACER palmatum atropurpureum. *Japanese Red Maple.*
BETULA alba laciniata. *Cut-leaf Weeping Birch.*
SALIX, Niobe. *Golden Weeping Willow.*

Flowering Trees

CERCIS canadensis. *Redbud; Judas-Tree.*
CORNUS. *Dogwood, Pink, White, Japanese.*

How To Reach Our Nursery

Our Nursery is located in the town of New Canaan, Conn., 40 miles from New York City and just ½ mile north of the Merritt Parkway, which connects with Hutchison River and other New York City and Westchester County parkway systems.

Approaching New Canaan from New York, turn right off the Merritt Parkway at exit 38 onto NEW CANAAN AVENUE, ROUTE 123. Turn right on State Highway passing back under Parkway and take first right, which is Carter Road, then proceed ½ mile to Nursery.

Approaching on Merritt Parkway from Bridgeport and East, take exit 38 off Parkway at NEW CANAAN AVENUE, ROUTE 123. Go straight ahead onto Carter Road, then proceed ½ mile to Nursery.
